The **National Food Buyers Matching Event** is a focused trade and sourcing initiative that connects food manufacturers, processors, and MSMEs with institutional buyers, supermarket chains, distributors, and horeca (hotel, restaurant, and café) representatives. The event is designed to streamline supplier-to-buyer engagement through structured business matching sessions.

Participants can showcase their food products, meet qualified buyers through pre-arranged appointments, and explore opportunities for bulk purchasing and long-term supply agreements. The event also includes discussions on product standards, packaging requirements, pricing strategies, and market trends to help suppliers become more competitive in the food industry.
